

VORYN GROUP LTD. FOUNDER BIO

Raheim Palmer

Founder & Chief Executive Officer, Voryn Group Ltd.

Raheim Palmer is the Founder and Chief Executive Officer of Voryn Group Ltd., a Jamaican diversified holding company founded in March 2025 to build, develop, and scale technology enabled businesses that solve real problems, create economic opportunity, and deliver long term value in Jamaica and beyond.

Palmer founded Voryn Group on the belief that world class companies can be built in Jamaica through vision, discipline, innovation, strong leadership, and purpose. His long term goal is to develop an interconnected ecosystem of businesses serving industries that are important to the future of Jamaica and the wider Caribbean.

Voryn Connect Ltd. is the Group's first company, with an official launch date of September 1, 2026. The all in one digital marketplace connects customers with independent businesses and service providers across rides, delivery, vehicle rentals, shopping, auto care, technicians, home services, and other everyday needs.

Voryn Connect was created in memory of Palmer's father, Gary Palmer. His natural ability to bring people together and connect them with someone who could help solve a problem became part of the inspiration behind the platform and its purpose.

Voryn Connect represents the first step in Palmer's broader strategy for Voryn Group. He is also leading the long term development of future businesses across logistics and fulfillment, renewable energy, technology and digital resilience, healthcare, real estate, infrastructure, and other essential service sectors, guided by a Jamaica first, globally competitive vision.

IN HIS WORDS

"My father, Gary Palmer, had a special way of connecting people. No matter what problem we had, he always seemed to know someone who could help fix it. That stayed with me. Voryn Connect was created in his memory, and it carries forward that same idea: connecting people with the right person, service, or solution when they need it most."
